

MFA-PC

Concrete to Concrete expansion joint cover system

Innovative solutions for Pedestrian Areas

The MFA-PC expansion joint system is designed for installations with only a minimum rebate available, this system is designed to be surface fixed on top of the floor finish Suitable for environments such as:

- Shopping & retail centres
- Hospital walkways, corridors & public buildings
- Indoor and outdoor public spaces

Features

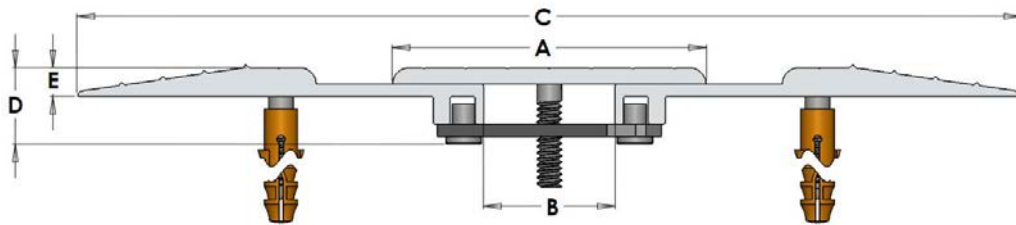

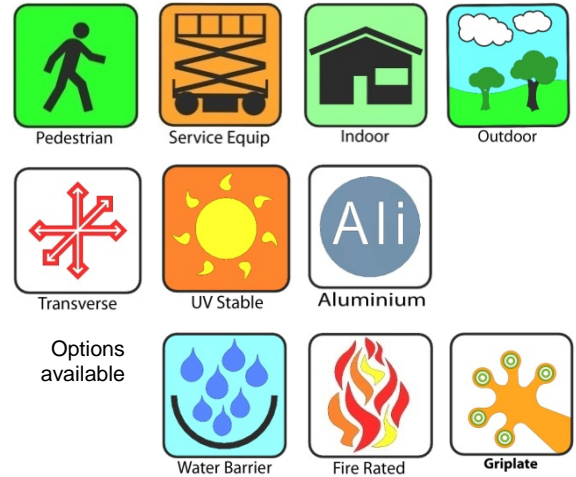

- Foot safe for pedestrian traffic
- Floor to floor installation
- Minimum Rebate Required
- Surface fixed
- Suited well to retrofit outs
- 1mm leading edge designed for a concrete to concrete floor surface.

Benefits

- Low maintenance though design simplicity
- Structural Grade ensures extended serviceability
- Suits a wide range of applications
- Base system incorporates anchoring points
- Can be installed to suit all surface to surface floor finish types including tiles, stone, vinyl, concrete and epoxy floors.

Other Options

- Griplate™ Cover Plate. Available in aluminum to conform to Australian Standard. AS NZS 4586.
- Water, Vermin and Fire barrier
- Custom built coverplates to suit most gaps, movement ranges and loads.

Block out dimensions
16 h x 13w each side

Physical Data

All measurements
stated are in mm.
